

<b>HOW SAFE IS YOUR DRIVING?</b>	
<b>If you are being honest ...</b>	<b>Your thoughts?</b>
<b>You're driving much more slowly and cautiously than you used to</b>	
<b>You are avoiding busy times and busy areas more than you used to</b>	
<b>Things sometimes happen too quickly when you're driving and catch you out</b>	
<b>Night driving makes you nervous and a bit frightened</b>	
<b>Sometimes you can feel your attention wandering</b>	
<b>You sometimes feel faint or giddy when driving</b>	
<b>You sometimes can't work out where you are, even in places you are familiar with</b>	
<b>Your passengers tell you that you are driving too fast</b>	
<b>Idiots keep hooting and flashing at you</b>	
<b>Idiots overtake you in dangerous situations</b>	
<b>You've had minor prangs or knocks in the last few months</b>	
<b>You've had more near misses</b>	
<b>Parking and manoeuvring the car is getting more difficult</b>	
<b>You can't read the number plate of the car in front of you</b>	
<b>You can't always remember where you parked the car</b>	
<b>Relatives are offering to drive you</b>	
<b>Relatives and friends are hesitant to accept your offer of lifts</b>	
<b>Your G.P. has suggested that it might be time to stop driving</b>
